Allowable Subject Matter

1. Claims 1-18 are allowed over prior art.
2. The following is a statement of reason for allowance: As indicated in the previous office action claims 1-9 contain allowable subject matter and would be allowed if Applicant corrects the previous 112 problem. Applicant has amended the claims, which corrects the 112-second paragraph problem.

Although the combined cited art discloses processing of digital data (CDMA) and puncturing schemes associated with deleting symbols/bits in a repetition process for obtaining results that include fixed-size data frames they fail to teach/suggest decreasing the size of a frame by deleting a first number of bits minus a second number of bits from a frame, deleting bits in a single iteration through the data thereby creating a reduced length frame for processing in a digital communication system, wherein the deleting of bits involves the distance between any two consecutive deleted bits within any group within a second subset of the frame, and selecting puncturing bits that are separated from a puncturing bit of next lowest index by an associated distance of non-puncturing bits, a distance associated with a first plurality of puncturing bits, a distance associated with a second plurality of puncturing bits which are equal to a non-zero interger of non-puncturing bits.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
